- Average Grade: 86.1% (Course completed; degree pending due to outstanding fees.)
- Dean's Honor Roll (3 Consecutive Years) and President's Honor Roll

WORK EXPERIENCE

Release Readiness Specialist - Security & Risk, W4B, Home. HHMM

May 2025 – Present

Wealthsimple

Toronto, ON

- Work with different teams to support and execute product releases, ensuring alignment with compliance, fraud prevention, and client standards.
- Collaborate cross-functionally with Product Managers and R&D teams to gain insights on release scope, client impact, and risk exposure, contributing to structured and secure release plans.
- Review and influence product designs in partnership with Designers, providing feedback from a client-first perspective to optimize security, usability, and trust.
- Coordinate with Knowledge and Content teams to ensure accurate, timely documentation (Guru cards, macros, Help Center articles) for both Client Success (CS) and clients ahead of product launches.
- Analyze security and risk across product releases in multiple domains, proactively identifying vulnerabilities, fraud risks, and client-impacting concerns.
- Communicate key findings and release-specific risk insights to the Fraud Countermeasures and Fraud Investigations teams to support incident prevention, mitigation planning, and post-release analysis.
- Leverage advanced tooling and AI platforms such as ERNIE, LLM Gateways, WHALE, Zendesk, Zira, and SQL to gather, label, and analyze client feedback, identifying pain points and behavioral trends related to new features and updates.
- Work closely with the Client Experience Operations (CXO) team to synthesize qualitative insights and issue trends, driving continuous improvement in product safety and user experience.
- Report findings and actionable feedback directly to the R&D team to influence product decisions that enhance both client experience and security posture.

Contract Associate - Account Operations

Aug 2024 – May 2025

Wealthsimple

Toronto, ON

- Assess business methods within the team, identify inefficiencies, and initiate processes to optimize operations within the Accounts Operations team.
- Conduct document verification for new and existing clients and create and manage fraud detection tickets as part of the risk assessments to maintain quality assurance standards by the business unit.
- Conduct assessments and propose improvements to methods, systems, and procedures in operations, focusing on identity conflict resolution (SIN, name, date of birth, email), fraud prevention, and broker feed management
- Analyze systems and propose, design, and develop customized solutions and automation to optimize performance and efficiency
- Conduct training, delegate work to team members, and ensure that deadlines are met.
- Collaborate with cross-functional teams to identify and determine solutions for bugs causing operational toil.

Front Desk Associate

Oct 2022 – Dec 2024

Hampton Inn by Hilton Peterborough

Peterborough, ON

- Welcome guests with a warm and professional demeanor, creating a positive first impression.
- Manage check-in and check-out processes efficiently, ensuring a seamless experience for guests.
- Handle guest inquiries and concerns promptly and effectively, enhancing overall guest satisfaction.
- Assist in maintaining cleanliness and organization of the front desk area, contributing to a pleasant atmosphere.
- Collaborate with other hotel departments to coordinate guest services and resolve issues efficiently.
- Demonstrate excellent communication and interpersonal skills, building rapport with guests and colleagues.
- Successfully manage multiple tasks simultaneously in a fast-paced environment, ensuring smooth front desk operations.
- Exceed customer service expectations, achieving a 20% increase in efficiency.

Teaching Assistant, Student Marker, and Student Lab Demonstrator

Trent University

Peterborough, ON

- Provided hands-on instructional support in Software Design and Modelling, emphasizing problem-solving and analytical techniques.
- Collaborated closely with a supervisor to align activities with the overall course objectives.

- Facilitated practical application, leading to a 25% improvement in problem-solving.

Cashier

Petro Canada

Sep 2021 – Apr 2022, Sep 2022 – Oct 2022

Peterborough, ON

- Processed customer transactions accurately and efficiently, handling cash, debit, and credit card payments.
- Provided friendly and attentive customer service, addressing inquiries and resolving issues to ensure customer satisfaction.
- Maintained a clean and organized work environment, including the cashier area and merchandise displays.
- Monitored fuel pumps and assisted customers with refueling when necessary, adhering to safety protocols.
- Managed inventory of merchandise and restocked shelves as needed, contributing to a positive shopping experience for customers.
- Adhered to company policies and procedures, including safety and security protocols, to maintain a safe and secure work environment.

Customer Service Associate

Kababia

May 2022 – Aug 2022

Scarborough, ON

- Assisted customers in placing orders, providing recommendations and ensuring accuracy.
- Handled customer inquiries and concerns in a professional and courteous manner, resolving issues promptly to ensure customer satisfaction.
- Managed the cash register, processing payments accurately and efficiently.
- Maintained cleanliness and organization of the dining area, ensuring a pleasant experience for customers.
- Demonstrated excellent communication skills, both with customers and team members, to ensure smooth operations.

UNIVERSITY PROJECTS

Portfolio

- Developed an introduction page showcasing various HTML elements, including images, tables, lists, and media.
- Created an online version of my CV using HTML and CSS, replicating a design from dribbble.com/tags/resume.

Subway System Management Application

- Led the development of a sophisticated subway management system using C#, demonstrating proficiency in data structures and algorithmic design for efficient route planning and station management.
- Implemented functionality for authorities to add or remove stations.
- Utilized a graph-based algorithm to find the shortest route between two stations. Considered factors such as distance, time, or number of transfers.

Projects Analysis: Report on a project Requirements, Constraints and Costs

- Developed a report on the project requirements, constraints, goals and scope through a multiple meeting with the clients.
- Figured out what the client wants and how we can make the program better.
- Created a detailed cost assessment as well as Data model for the projects.
- Worked on all the use case scenarios and how the system should work accordingly. Assessed the risks of the project.

OTHER PROJECTS

Identity Conflict Reform (Wealthsimple)

- Developed a report on the project requirements, constraints, goals and scope through understanding the process and multiple meetings with different teams.
- Identified opportunities for system enhancement and evaluated the potential impact of these improvements.
- Designed and prototyped the new process using Figma.

Identity Conflict Process Automation (Wealthsimple)

- Mapped out diverse scenarios encountered during the resolving process of identity conflict.
- Developed pseudocode for each scenario, detailing conditions and triggers to guide automation development.
- Collaborated closely with automation specialists, providing crucial insights and support throughout the development and testing phases.
- Assisted in identifying and resolving bugs, optimizing automation effectiveness and reliability.
